Suddenly, your fleet's future looks good.

Good for the Earth

- 100% electric powered
- True zero-emissions driving
- 16kWh Lithium-Ion battery
- EPA combined 112 MPGe, Highest efficiency of any electric car available in the U.S.¹

Good to Go

- Real four-passenger interior room
- Six-airbag occupant protection
- Active Stability Control for improved roadability
- Anti-lock disc brakes with Traction Control
- High torque electric motor delivers responsive performance
- Tight 15.4 foot turning radius means easy parking and maneuverability
- EPA rated at 62 real world miles per charge³
- Highway capable with top speed of 81 mph

Good for Your Bottom Line

- Most affordable EV starting at \$29,125 MSRP² and only \$700 MSRP more to add a DC Quick Charge Port
- Per-vehicle Federal, State and/or Local tax incentives available⁴
- Fewer moving parts than gas engine, lower maintenance costs and less downtime
- Regenerative braking system reclaims energy and increases range
- Maintenance costs 1/3 of internal combustion vehicle
- Lowest cost per mile of any electric vehicle available in the U.S.
- Fuel cost 1/4 of comparable internal combustion vehicle
- Eight year/100,000-mile main lithium battery limited warranty coverage

3-Way Charging System

- Trickle Charge L1-AC120V outlets
- Normal L2-AC240V EVSE
- Quick-Charge Commercial - DC408V

LEVEL 2

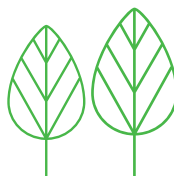

DC CHARGE

7 HOURS

30 MIN

MiEV Remote System

- Pre-activated Air Conditioning/Heater
- Timer Charging Function
- State of Charge Display
