

2009 Lancer Ralliart

The Lancer Ralliart model is the latest addition to the sporty Lancer compact car family. This new model reinforces the sporty identity of the Lancer lineup (Lancer, Lancer Ralliart and Lancer Evolution) with aggressive styling and driving performance to be well positioned between the Lancer and the Lancer Evolution models.

Lancer Ralliart is powered by a new 2.0-liter DOHC MIVEC intercooled and turbocharged engine that develops an estimated 235 horsepower. The engine is mated to Mitsubishi's Twin Clutch-SST gearbox that delivers highly-efficient power transmission while enhancing the sporty driving qualities of the vehicle with lightning-quick, silky-smooth, paddle-actuated shifts or programmed fully-auto modes. The Lancer Ralliart's full-time 4WD driveline features Mitsubishi's Active Center Differential (ACD). The ACD unit employs an electronically controlled multi-plate clutch center differential, vectoring drive torque to the front and rear according to different driving conditions to realize the best balance between steering response and traction characteristics on Tarmac, Gravel, or Snow surfaces. Lancer Ralliart is also equipped with a front helical and rear mechanical limited slip differentials.

The Lancer Ralliart exterior is distinguished by its more aggressively styled front bumper design, rear bumper cover, dual outlet muffler and a lightweight aluminum, ducted hood that delivers cooling air to the turbocharger. The interior design places greater emphasis on function and vehicle control. Lancer Ralliart is equipped with FAST key, hands free telephone interface, the same Twin Clutch-SST shifter used on Lancer Evolution, and easily accessible steering column mounted paddle shifters.

Available equipment and options to include: Recaro seats, HID headlights, 650 watt Rockford Fosgate 9-speaker audio system, Sirius satellite radio, power sunroof, and a 30 GB Hard Drive Navigation system

Lancer Ralliart Specifications

Overall length (mm)	4,570
Overall width (mm)	1,760
Overall height (mm)	1,490
Wheelbase (mm)	2,635
F/R track (mm)	1,530 / 1,530
Occupants	5
Engine	2.0-liter DOHC MIVEC with intercooler/turbocharger
Max. output	177 kW (240 PS)
Max torque.	343 Nm (35 kg-m)
Driveline	Full-time 4WD (with ACD)
Transmission	Twin Clutch SST
Tires	215/45R18
