Drive Modes

S-AWC⁴ with "Ready-for-Anything" modes

S-AWC + Twin Motor

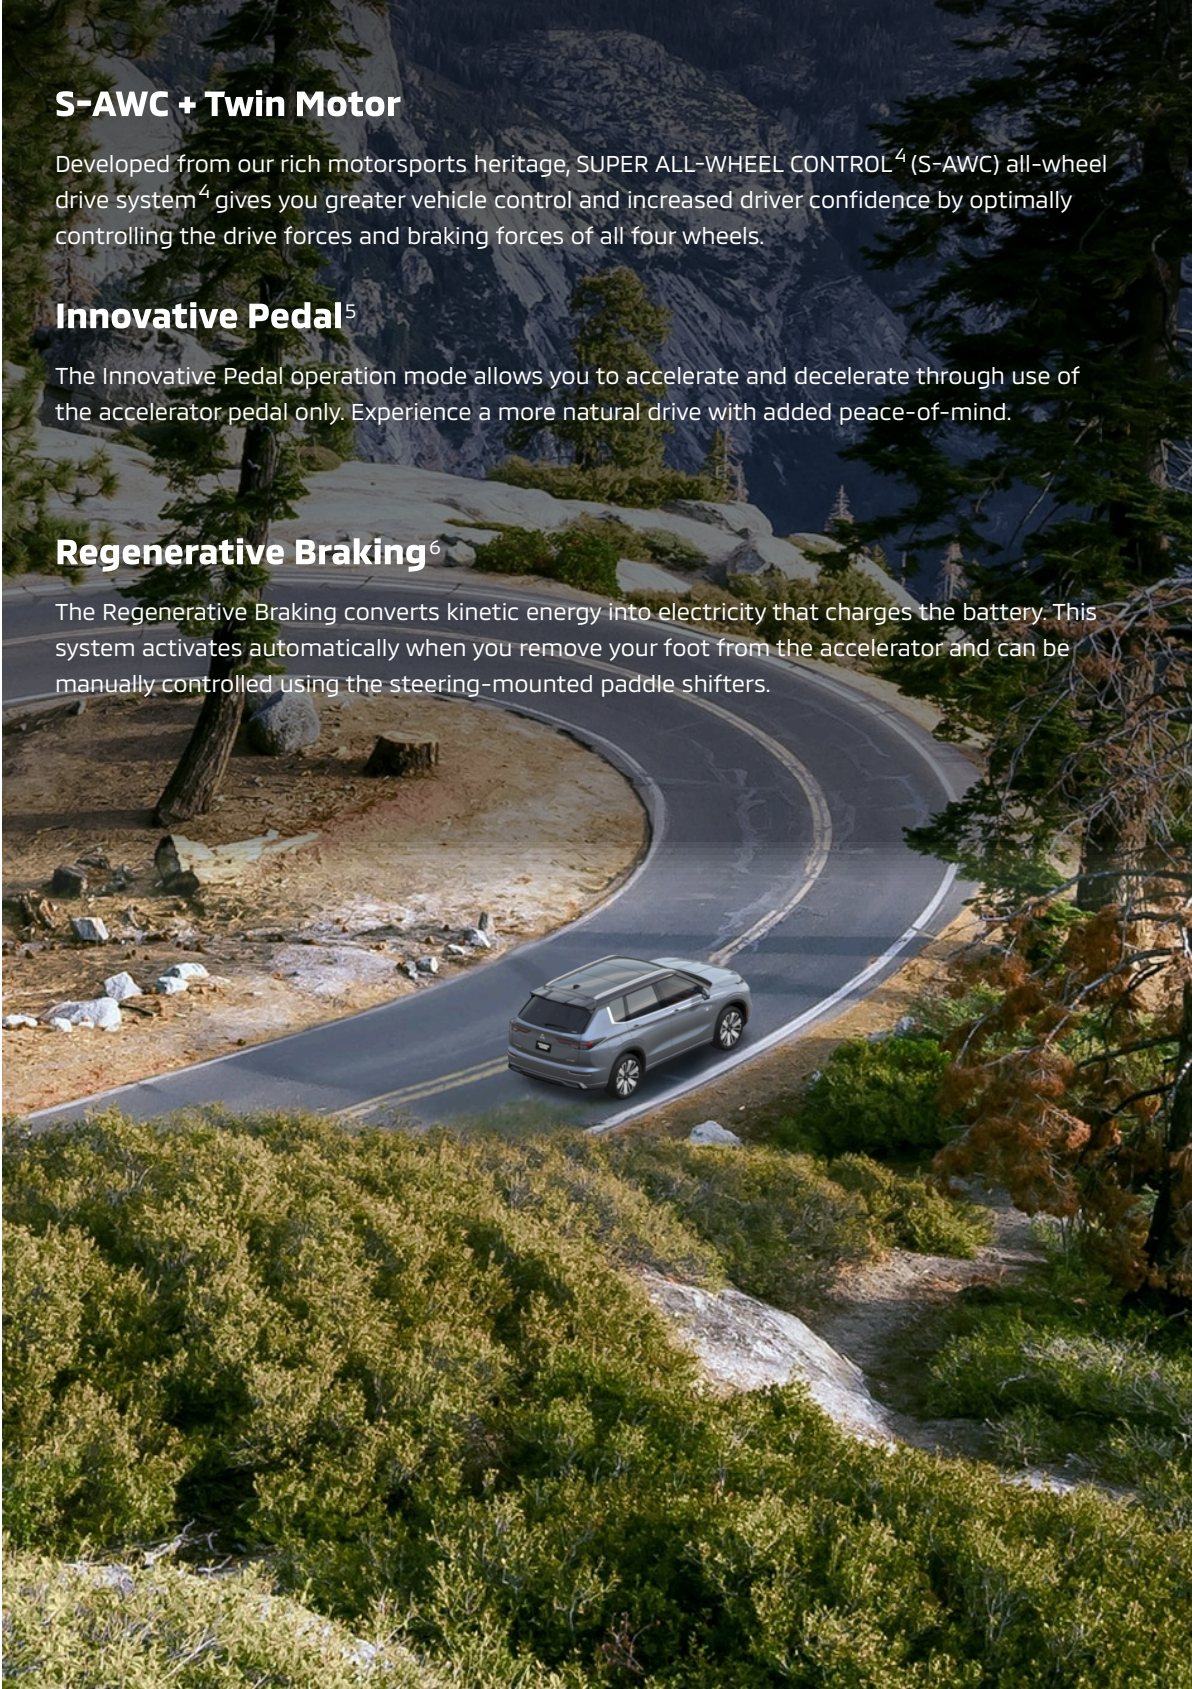

Developed from our rich motorsports heritage, SUPER ALL-WHEEL CONTROL⁴ (S-AWC) all-wheel drive system⁴ gives you greater vehicle control and increased driver confidence by optimally controlling the drive forces and braking forces of all four wheels.

Innovative Pedal⁵

The Innovative Pedal operation mode allows you to accelerate and decelerate through use of the accelerator pedal only. Experience a more natural drive with added peace-of-mind.

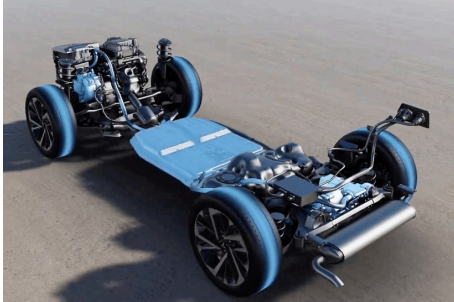

Regenerative Braking⁶

The Regenerative Braking converts kinetic energy into electricity that charges the battery. This system activates automatically when you remove your foot from the accelerator and can be manually controlled using the steering-mounted paddle shifters.

Seize the Road

Experience optimum driving performance with the innovative Plug-in Hybrid EV system. The fuel-efficient 2.4L MIVEC engine and twin electric motors intuitively shift between three drive systems, adapting to road conditions to provide extra power and versatility.

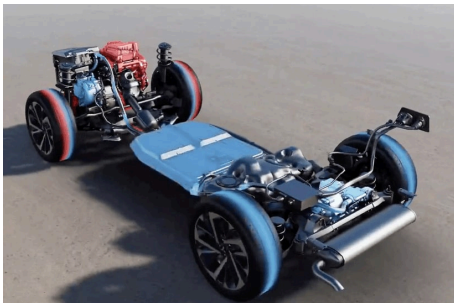

EV System

For easy commutes or quick trips to the grocery store, save on gas with 100% electric, zero-emission driving. In EV mode, power comes from the twin electric motors and energy is sourced exclusively from the lithium-ion battery pack.

Series Hybrid System

Need to add a little torque to an uphill situation? In Series Hybrid mode, the gas-powered generator helps charge the lithium-ion battery and delivers power to the twin electric motors, giving you a quick burst of power when you need it.

Parallel Hybrid System

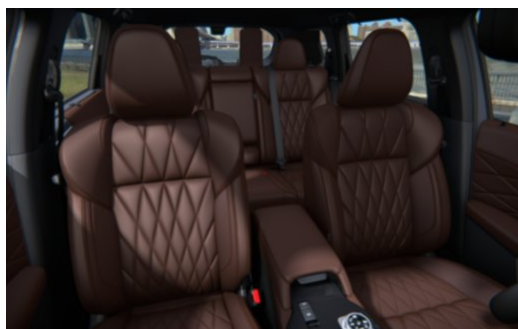

For weekend adventures and cruising, Parallel Hybrid mode kicks in. The 2.4L gas engine drives the front wheels with help from the twin electric motors, while any excess electricity is siphoned back into the lithium-ion battery pack.

INTERIOR

INSIDE YOUR OUTLANDER PLUG-IN HYBRID

Welcome to your inner sanctuary. The 2026 Outlander Plug-in Hybrid's premium cabin is the perfect place to recharge, delivering extraordinary comfort in an atmosphere of calm elegance.

7 SEATS

Now everyone can come along for the ride with 3 rows.

8-WAY POWER SEATING

Configure every drive to your liking. Power seats with eight unique power seating options.

AVAILABLE FEATURE

MASSAGE SEATS

Perfect for long-distance drives or after a long day of skiing or hiking.

AVAILABLE FEATURE

LARGE CARGO ROOM

Loading up is easier than ever with up to 64.7 cubic feet of storage.

YAMAHA® AUDIO SYSTEM

Dynamic Sound Yamaha® Ultimate (12-speakers) for SEL Premium.⁷

AVAILABLE FEATURE

1500W CHARGE

The available AC power supply offers a source of electricity for small appliances, and similar items.

Disclaimers

Computer renderings depicted. Actual production model may vary. Optional features shown. Available at additional cost. Information accurate at time microsite is generated but is subject to change. Visit mitsubishicars.com or see your local Mitsubishi dealer for complete details.

1 Includes 10-Year/100,000-Mile Powertrain Limited Warranty; 5-Year/Unlimited-Mile Roadside Assistance; and 2-Year/30,000-Mile Limited Maintenance. Powertrain coverage terms are from original in-service date and applicable only to original owner. Subsequent owners receive balance of 5-year/60,000-mile New Vehicle Limited Warranty. Roadside Assistance timed from date vehicle is first sold or put into use, whichever is earlier. Certain assistance and vehicle uses excluded. Limited Maintenance includes three oil and filter changes, three tire rotations, three multi-point inspections, and one cabin filter change within specified time/mileage windows. Not transferable to subsequent owner. Parts or services not redeemed within specified windows are forfeited. Certain restrictions apply. See retailer for complete details. References to time/mileage limitations are to whichever occurs first.

2 Electric range of up to 45 miles on a full charge and a combined electricity + gasoline range of 420 miles. Combined fuel economy Electricity + Gasoline of 64 MPGe. EPA highway mileage estimate. Actual range and mileage may vary with driving conditions. Use for comparison only.

3 Outlander Plug-in Hybrid DC fast charging is only available with CHAdeMO charging systems.

4 Standard feature. Super All-Wheel Control (S-AWC) adds Active Yaw Control (AYC) to realize the AWC concept at a very high level. While this Integrated Vehicle Dynamics Control System manages the driving forces and braking forces of the four wheels to help realize vehicle behavior that is faithful to the operation by the driver under a variety of driving conditions, it is not a substitute for careful driving. S-AWC cannot prevent collisions or loss of traction in all conditions. Exercise caution so your full attention is given to vehicle operation in all road conditions.

5 Standard feature. Innovative Pedal is a driver aid only and is not a substitute for safe and careful driving. The brake pedal must be used when stronger deceleration is required or when bringing the vehicle to a complete stop.

6 Regenerative Braking provides a minimal charge to the vehicle and is not a substitute for charging or refueling your vehicle.
